

PARIS STREET BACKLOT SET

PARIS STREET BACKLOT SET

The **Paris Street** set is located on Barrandov Studio's backlot, immediately adjacent to the sound stages and other facilities. It was constructed as a faithful replica of a 19th-century Paris street.

The street consists of 20 various houses and 10 interiors available for shooting. It offers a walkable roof with a clear natural horizon. Its dimensions are 130 by 197 feet (39 × 63 m).

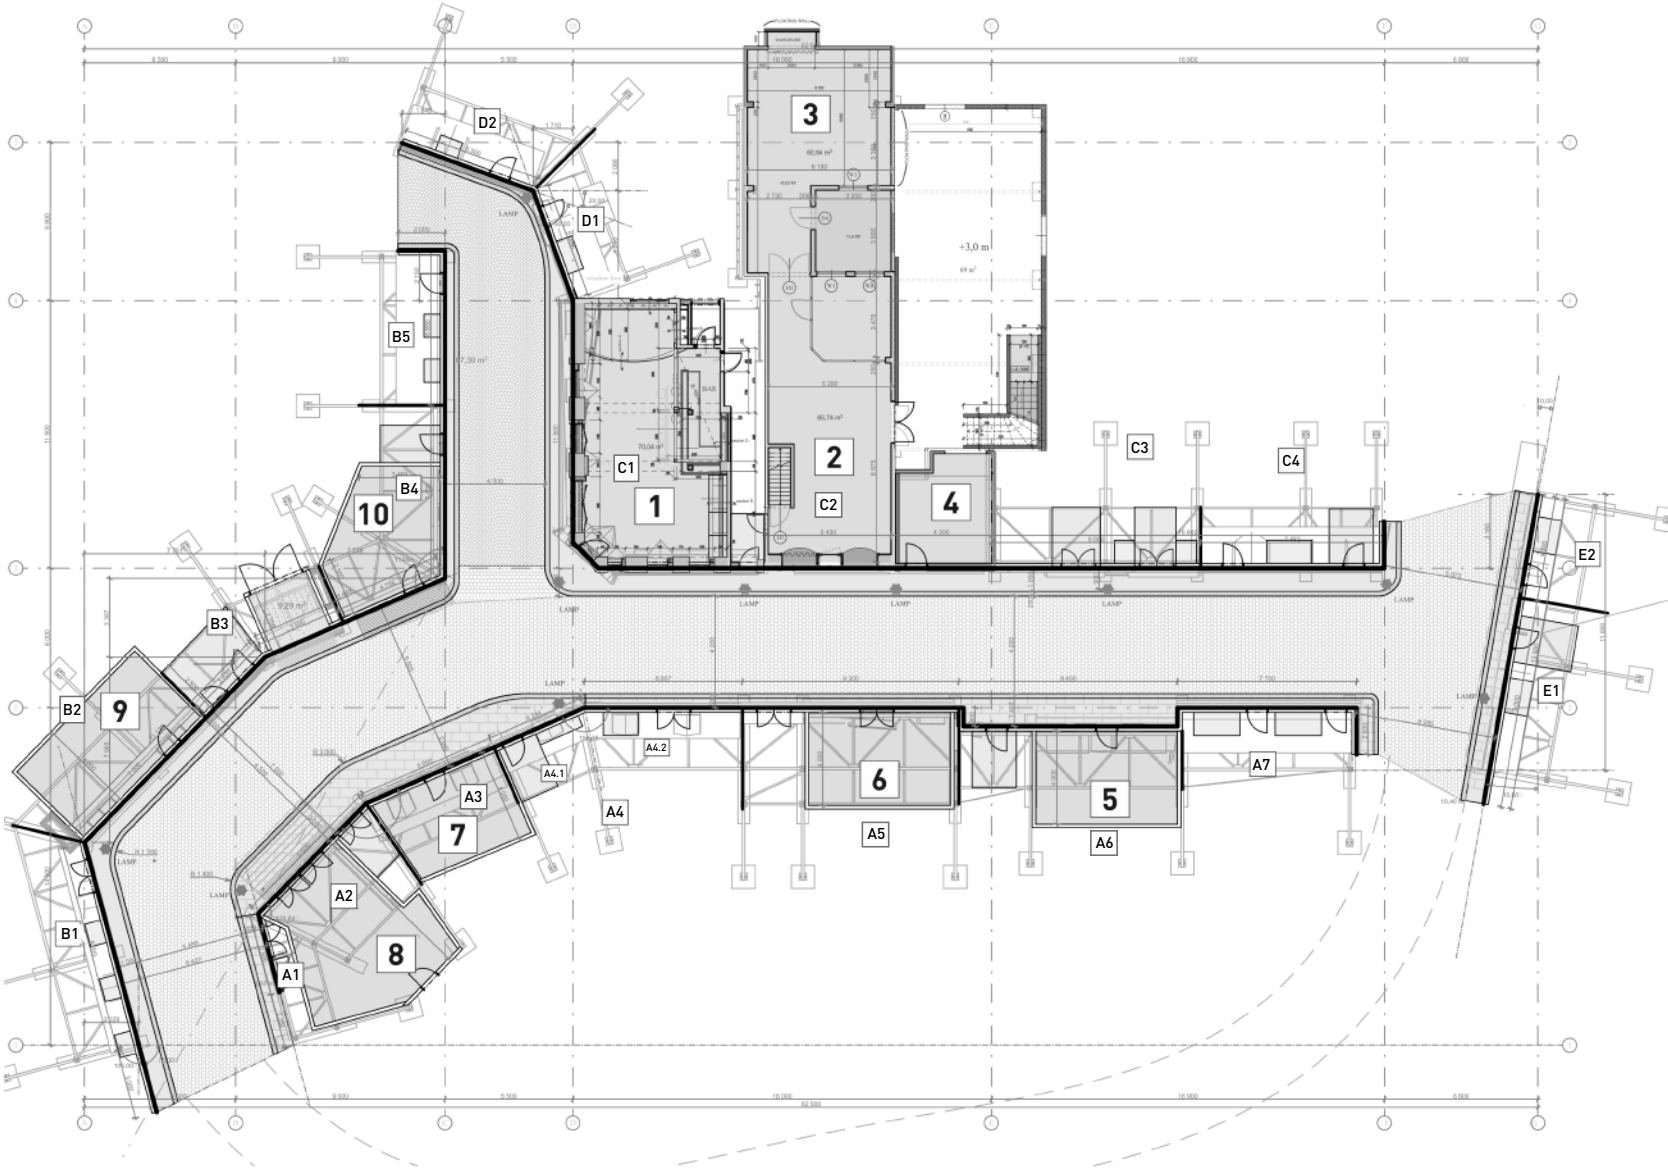

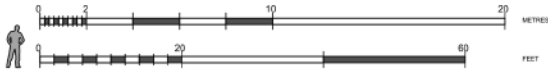

Connections to electricity and water are nearby, as is the parking area. The decorations can be adjusted as required by our decoration department, and there is also a great fund of costumes and props available.

It is possible to add another part to the decoration, as there is a generous area in the immediate vicinity.

PARIS STREET BACKLOT SET

PARIS STREET BACKLOT SET
